Foster Homes Needed For Ex-Racing Greyhounds

Thanks to our foster homes, we are able to give our greyhounds the **one thing** that we feel most strongly influences our ability to successfully place them in a home that will be theirs forever. That **one thing** is fostering. Living in a foster home allows the newly retired racer to make a gentle transition from the track to being a lifelong companion. While the greyhound learns important behaviors that will stay with them all their life, the foster family gets to know them well, watch them change and assists in making sure that their unique personality is recognized and that they are placed in the right forever home. Fostering is the only way we know to accomplish this and **GreySave fosters 100%** of our hounds!

If you think you might like to foster one of these truly greyt hounds then please contact the Foster Coordinator, Sandy Hightower at 714- 342-4193 or one of the GreySave representatives at this event.
